SUBJECT: Completion of Draft Responses to State Review of the Groundwater Assessment Plan Addendum, 1989 and 1990 Annual Groundwater Monitoring Reports

TO: Erich Evered, Director
Environmental Restoration
EG&G Rocky Flats, Inc.

In response to EG&G's Environmental Management (EM) letter, dated October 8, 1991, this letter acknowledges EM's receipt of the Colorado Department of Health (CDH) comments and concerns about the May 1990 Groundwater Assessment Addendum and the 1989 and 1990 Annual Groundwater Monitoring Reports for RCRA Regulated Units at Rocky Flats Plant.

The date proposed by EG&G for completion of the draft responses is December 6, 1991. DOE finds this date acceptable. I would like to note, however, that DOE does not plan to formally transmit these comments to CDH, unless specifically requested to do so.

As discussed with Jim Langman, a meeting will be held on November 15, 1991 between DOE and EM concerning CDH comments on the 1989 and 1990 Annual Groundwater Monitoring Reports. The possibility of including a groundwater assessment chapter as part of the Annual RCRA Groundwater Monitoring Report will also be discussed at this meeting, as well as EG&G's preparation plan and schedule for this year's annual report, and the status of the quarterly RCRA groundwater reporting.

If you have any questions, please contact Jen Pepe of my staff at extension 2184.

Frazer R. Lockhart
Director
Environmental Restoration Division
